Tech, Rodman Ford.

The deep and powerful beat of the Japanese Taiko (drum), combined with dynamic movement, makes for a wonderful and energetic performance that is as unique as it is exciting to watch. Experience the

primal power created as the drummers move and drum in unison, creating a sensation that can be felt as much as seen and heard. Foxborough is

fortunate to have the Odaiko New England (ONE) group as guests. They will be combining the aesthetics of this Japanese culture with the exciting sounds of primitive rhythms.

The sound of the taiko has an irresistible draw that summons people to seek out its source. It's believed that the taiko has the power to bring people together in harmony and community.

Join us for this unique performance that will act as a fundraiser for the Cocasset River Recreation Area.

All ages invited. The performance will be outdoors in a festive seated venue. In case of rain, the performance will be held indoors in the nearby

rec hall. Refreshments, raffles, souvenirs and CD's will be sold, and the performers will be available after the show for questions and answers.

This program is supported in part by a grant from the Foxborough Cultural Council, a local agency which is supported by the Massachusetts Cultural Council, a state agency.
